

Liquid Helium Storage Vessel Stainless Steel (60 Liters)

- Neck bore diameter 37mm (1.45 inches)
- Maximum working pressure 10 PSIG
- Pressure relief valve
- Compound gauge 30" HG 0-30 PSIG

Technical Information:

Net Capacity	60 Liters
Gross Capacity	65 Liters
Weight Empty	87 kg (192 Lbs)
Material of Construction	304 S/S
N.E.R.	1.5%
Operating Pressure	10 PSIG
Design Pressure	45 PSIG
Neck ID	37mm (1.45 inches)
Depth (Flange to Bottom)	941mm (37 inches)
Outside Overall Diameter	611mm (24 inches)
Removable Dollies	

Options Available:

- Differential Pressure Liquid Level Gauges
- Built-in Vacuum Jacketed Withdrawal Valve
- Superconducting Liquid Level System with Sensors
